STATEMENT OF FACTS

On Tuesday, May 17, 2005, a Cooperating Witness (CW) working with the FBI, met with the defendant, Freddie Tillery, Jr., at 8th and Madison Streets, N.W., Washington, D.C., to purchase a quantity of crack cocaine from the defendant. Defendant Tillery entered an undercover police car, and gave the CW three ziplocks containing a white rock substance, and in return the CW gave the defendant $60.00 in pre-recorded funds. After the sale, the defendant got out of the car, and agents placed him under arrest. Agents recovered the pre-recorded funds from the defendant. The rock-like substance appeared to be crack cocaine. A portion of the white rock like substance field tested positive for cocaine base.
